

ROGUE ∞ BLUE

BALANCED PERFORMANCE. REFINED FEEL.

NEW ALDILA™ ROGUE ∞ BLUE Available 2026

Delivers balanced feel, consistent performance, and stable
feedback for confident, repeatable center-face contact.

ALDILA

ALDILA™ ROGUE ∞ BLUE

ROGUE ∞ Blue delivers balanced performance with a refined, responsive feel. Designed without counterbalance, this profile promotes neutral start-line tendencies and consistent club delivery while maintaining the smooth feedback expected from the ROGUE family. Built with Dual Torque Core technology, ROGUE ∞ Blue blends stability and feel, making it a reliable option for players seeking repeatable impact conditions and predictable performance across a wide range of swing types. ALDILA's Dual Torque Core is a proprietary shaft technology designed to reduce torque and improve stability without sacrificing smooth feel. It is the centerpiece of the ALDILA ROGUE ∞ (Infinity) series and focuses on the torque core—the part of the shaft responsible for transmitting vibrations from impact to the golfer's hands.

The technology uses a dual-layered construction of high-modulus fibers:

- Dual Torque Core Technology reduces torque and improves shaft stability through an application of High Modulus Fiber and Pitch Fiber.

- Key Benefits
- Neutral Start-Line Tendencies: Promotes balanced face delivery through impact, helping golfers produce more neutral start lines.
 - Consistent Clubhead Delivery: Reduced shaft deformation supports repeatable impact conditions and improved overall consistency.
 - Enhanced Feel: Dual Torque Core maintains the smooth, active feel players prefer while providing improved clubhead control.
 - Stability Without Sacrificing Feel: Combines clubhead stability with responsive feedback for players seeking both control and feel.

Player Type: Moderate Tempo players seeking versatility, consistency, neutral start-line tendencies, and repeatable club delivery.

ALDILA™ ROGUE ∞ BLUE FEATURES

- ✓ HIGH MODULUS FIBER CONSTRUCTION
- ✓ PITCH FIBER MATERIALS
- ✓ LASER-ETCHED COSMETIC DETAILING
