## MID LAUNCH AND LOW SPIN

<b>Company</b>	ALDILA®
<b>Product Type</b>	WOOD
<b>Series</b>	R.I.P.
<b>Year</b>	

The ALDILA® R.I.P. Phenom incorporates ALDILA®'s proven R.I.P. Technology with unique composite construction to create a new and innovative shaft flex profile for maximum distance and control – Hyperbolic Flex Technology. R.I.P. Technology repositions the materials and patterns to optimize the performance characteristics of the shaft. The Phenom's Hyperbolic Flex Technology provides a stiff tip-section for optimal launch and spin control, with a very firm butt section for an incredibly stable feel, while the center section of the shaft is softer to provide outstanding kick through impact to maximize ball speed. The R.I.P. Phenom incorporates the same flex, torque and feel properties that have enabled it to deliver unparalleled performance and launch characteristics for the better player.

**Technologies:** Reverse Inter-Laminar Placement (R.I.P.) Technology
