MID LAUNCH AND MID SPIN

Company	ALDILA®
Product Type	WOOD
Series	ROGUE®
Year	

The ALDILA® ROGUE® M-AX (Multi-Axial) mid-launch employs a new and unique woven graphite material to the outer layer of the shaft. This new material is incorporated into the shaft design in a 0/90 degree fiber orientation along the entire length of the shaft. This innovative use of full length 90 degree fibers provides significantly improved lateral (cross sectional) stability to the shaft during the shaft loading and release during the golf swing to provided increased energy to the golf ball at impact, and to allow for a more consistent release path swing after swing.

Technologies: Multi-Axial Weave
