

// ASCENT™ PL

MID LAUNCH, MID SPIN WOOD

Company	Aldila®
Product Type	WOOD
Series	ASCENT™
Year	2023

ALDILA ASCENT PL was built to provide lightweight performance to golfers seeking more club head speed without sacrificing feel. ASCENT PL uses FlyDrive Technology, an important innovation gleaned from study into high-performance fly-fishing rods. FlyDrive Technology uses a full-length Visco-Elastic Isolation Layer (VEIL) to resist the ‘ovaling’ that shafts experience when under load. This reduces oscillation in the club head and allows the golfer to return the club head to impact squarely for more center-face hits. Ascent PL delivers speed without sacrificing ALDILA’s signature satisfying feel.

Key ASCENT™ PL Technologies: FlyDrive Technology

Shaft Name	Flex	Length (in)	Weight (g)	Tip O.D. (in)	Tip Length (in)	Butt O.D. (in)	Torque (degrees)	Kick Pt.
ASCENT™ PL 40	W	46	42	0.335	3	0.604	6.9	Mid-Low
ASCENT™ PL 40	A	46	43	0.335	3	0.604	6.8	Mid-Low
ASCENT™ PL 40	R	46	44	0.335	3	0.606	6.7	Mid-Low
ASCENT™ PL 50	A	46	52	0.335	3	0.600	5.9	Mid-Low
ASCENT™ PL 50	R	46	55	0.335	3	0.602	5.7	Mid-Low

¹ All golf shafts are design to be butt trimmed to length.

² Golf shaft installation should only be completed by a qualified, trained golf club builder. To find an authorized ALDILA® account in your area, please visit our website.
